Ryan Firebees to Be Used As Missile Targets in Test

Jet-powered, free-flying targets will be used for the first time in an Air Force weapons meet when the 10-day "Project William Tell" is launched Oct. 20 at Tyndall Air Force Base, Florida.
This was disclosed today with the announcement that 12 top Air Defense interceptor teams will fire rockets and missiles against 600 mile-an-hour Ryan Firebee remote-controlled, jet target drones.
The evasive Firebees, less than half the size of a jet fighter, will "stand in" for the enemy in the most realistic evaluation ever made of the Air Force's ability to stop an air attack launched against this country.
Now the most widely used jet "flying bull's-eyes" in the nation, the Ryan Firebees are capable of diving, turning, banking and climbing under command of a ground controller at distances of up to 150 miles away.
By simulating enemy action at altitudes as high as 50,000 feet, the streaking red drones will test marksmen's hip of four teams of Convair F-102 Delta Daggers, three teams of Northrop F-89J Northrop Scorpions and five teams of North American F-86F Sabrejets, firing deadling Falcon GAR-1 guided missiles, Genie MA-1 atomic-type rockets and 2.75 inch "Mighty Mouse" fold-

Bank Growth Told
California Bank's growth has continued at a very satisfactory pace, Frank L. King, president, said in reviewing the bank's financial statements as of September 30, 1958.
Total resources increased from \$1,040,849,138 at September 30, 1957, to \$1,160,546,692, an increase of more than 11%.
chute after each mission, unless destroyed by a direct hit.

The Students of Torrance Need Room to Grow

Vote YES on October 14th Bond Issue

Our town is growing. And growing, like learning, needs plenty of room. Unless we do something about it now, it means more double sessions, crowded classrooms, inadequate facilities—and reduced opportunity for learning.
Then let's think about the future now. Let's do something about tomorrow today, before it becomes a bigger problem.
On October 14th we will vote on the School Bond Issue. It will be within our power to make sure our children have the necessary educational facilities for today and tomorrow.
Let's not stunt our children's growth!

VOTE YES
ON OCTOBER 14th
